

TO WHOM IT MAY CONCERN

FIRSTPOWER TECHNOLOGY Co.,LTD. hereby confirms that the

FTHT series battery (LFP1255FTHT--LFP12190FTHT)

are manufactured to and comply with pure lead battery technology as below:

- 1) The battery grid is made of pure primary lead;
- 2) Pure primary lead is used to make lead oxide and lead powder active substances;
- 3) Designed with thin plate technology;
- 4) Analytical grade sulfuric acid electrolyte is used

The pure lead battery represents the highest technological level of current VRLA battery, which solves the problems of early capacity loss, short cycle life and poor high temperature resistance of conventional AGM battery.
